Mr. Thisre has politished so ordanore which commands that all stock plays tild farces be brought to hun for revision and appropriation. The Trituffes in danger of being aquir. (2014) under the operation of censors, all cancatures of any requiring have disappeared. It there is not another revolution soon, Louis Philippa and his min-	land in now about \$5,000,000, or whom about \$60,000 only, are connected with the established chutch, there being in the country at least \$7,000,000 Roman Catholics. To provide a religion for \$5,00,000 Combinates there are \$1,140 churches, and these and imposting the annually exacted, from catholics, as well as others, to the annually exacted, from catholics, as well as others, to the annually exacted, from catholics, as well as others, to the annual income of each of the Archonicops and Hasbops, as over \$10,000.  To collect this revenue it from early becomes necessary to employ an armed \$1 cree, for the people are naturally unwiding to pay for the maintenance of a system of religion for which they have no follow-ships. Armed troops are therefore a meaning maintained in Ireland, to ad the clergy in growing the face of the post. The exposes of this army in 1831, was \$1,025, 4311, and of the police a lattle is so than 100,000. A gain, the line make between the people of Leland and the clergy, on account of latios, from 1517 to 1821, were \$100,000 asids between the people of Leland and the clergy, on account of latios, from 1517 to 1821, were \$100,000. Thus, it appears, that the samblished church relagon, for \$500,000 asids in heland, costs annually about \$2,007,0214, or \$11,511,5100, collected principally from \$7,500,000 that relation, and who never would pay a species of the proposed to that relation, and who never would pay a	down state, instead throught the bottning room, and on under down. He could not return. He inst object was to sake he web; for he knew that in regard to her there would not be a moment to loss. He can something the her there would not be a moment to loss. He can round to her workers, tore away the high headsoard which stored heart to it, and took he with and minut out—also the opper bed, on which he placed them on the ground. The near object was to sake the children. One of the borde men had saving from his head at the first call and attempted to tollow Mr. Fills down, but the smoke and heat which tooled up the states when he lower down was one near were un addicable, and the man natured round and longed from the chandra wandow. The dought, a young lady of about satisfary wars, belowed him.  The dones and wind we be not thus reposed, give tree cure later to the art, and the house being uninstance, and of ext control day, the flames agreed whe aston hing topid try and were shown the lower works, the control of the roundown of the flames. The done to the flames agreed with could be he for the works of the topic ground in he has worth of the flames. The young man term who were a land of a claimber words.
